

## DEPAUW WILL BE REPRESENTED AT Y. W. CONFERENCE

NINE DELEGATES FROM STUDENT BODY AND ONE FROM ADVISORY BOARD WILL ATTEND ANNUAL Y. W. C. A. CONFERENCE AT LAKE GENÈVE, WIS., AUG. 23 TO SEPT. 2

Nine delegates from the DePauw student Young Women's Christian Association and one from the advisory board will represent the university at the annual Y. W. C. A. student conference which will be held at Lake Geneva, Wis. from August 23 to September 2.

This year DePauw will be represented by the following delegates:

Miss Gladys Warner,  
Miss Janet Berth,  
Miss Dorothy Cecil,  
Miss Elizabeth Lockridge,  
Miss Mary Ives,  
Miss Winona Welch,  
Miss Harriet Geiger,  
Miss Helen Purcell,  
Miss Norma Linton,  
Miss Amelia D. Kemp,  
Miss Kemp is a member of the advisory board chosen to accompany the delegation. The remainder of the delegates were selected from the student body.

Miss Kemp, private secretary to President George R. Grose, left Friday noon for Chicago on her way to Lake Geneva. So far as possible the delegates will meet in Chicago and go to Lake Geneva together.

This conference will be similar to the one held earlier in the summer by the Y. M. C. A. at Lake Geneva. Nine men represented DePauw at that conference.

### REAL ESTATE TRANSFERS

John D. Newgent to Charles O. Miller, land in Clinton township, \$350.

Thomas E. Stanger to Mary F. More, lots in Greencastle \$500.

Harvey P. Hill to Louise Senter, land in Washington township.

Ott Sears to Gertrude Oakley, property in Greencastle \$1800.

Susan B. Kesterson to Gertrude Oakley, property in Greencastle, \$1550.

Margie D. Adams to John W. Herod, property in Greencastle \$2,250.

Ernest N. Sears to Gertrude Oakley, property in Greencastle \$1.

Mary Alice Cox to Elizabeth N. Hillis, property in Greencastle township \$4500.

James P. Hughes to Joseph Miller, property in Greencastle \$25.

William A. Dodd to William Cummins, property in Greencastle township \$1,500.

William A. Moser to Emery R. Moser, land in Jefferson township, \$1.

Emery R. Moser to William A. Moser, land in Jefferson township \$1.

Emery R. Moser to Myrtle F. Cline, land in Jefferson township \$75.

Emery R. Moser to Myrtle F. Cline, land in Jefferson township, \$1.

Emery R. Moser to Ida D. Cradick, land in Jefferson township \$1.

Charles C. Crawley to Albert Keen, land in Greencastle township \$350.

Elam M. Denny to Ralph M. Denny, property in Greencastle, \$1.

Ralph M. Denny to Elam Denny and wife, land in Greencastle \$1.

Laura R. Moore to Howard Rockhill, property in Greencastle \$2,600.

Charles Beaman to John B. White, land in Marion township \$16,340.

Harold Phipps, employed in the Central National Bank for the last two years, will give up his position Friday noon in order that he may make a business trip to Chicago before starting for Elmsdale, Kas., where he has accepted a position as principal of the Elmsdale High school. Mr. Phipps will leave Friday for Chicago but intends to return to Greencastle Sunday. He will leave Friday, August 26 for Elmsdale, Kas., by automobile. While employed at the bank, Mr. Phipps has made many friends who will be glad to learn of his accepting this excellent position, but will be sorry to learn that he is leaving Greencastle.

Mr. Phipps is a graduate of Indiana University with the class of 1917.

Born Wednesday afternoon to Mr. and Mrs. Russell Thomas a daughter.

## 200 GALLONS OF "WHITE MULE" WILL BE FREED SAT. ON THE PUBLIC SQUARE

Two hundred gallons of "white mule," which were captured this summer in liquor raids on the Ocean to Ocean highway by Sheriff Lawrence A. Sears and his deputies, will be poured out at 3 o'clock Saturday afternoon in the catch basin leading to the sewer at the south-west corner of the public square. The liquor has been safely locked in the basement of the Putnam county jail.

## IRISH CRISIS MAY DISRUPT PLANS OF PARLIAMENT

UNCERTAINTY OVER SITUATION IS LIKELY TO RESULT IN AGREEMENT MERELY TO ADJOURN TO OCT. 18—LONDON STILL OPTIMISTIC—OPINION PREVAILS THAT DAIL EIRANN IS PLAYING FOR PRESTIGE ABROAD

LONDON, Aug. 18.—Uncertainty over the Irish situation has caused the government to change its plans, and, instead of proroguing Parliament tomorrow as has been intended, it merely will be adjourned until Oct. 18. The speaker in the interval will have power to convoke Parliament should Irish developments necessitate.

Premier Lloyd George is expected to make a statement on the Irish situation just before adjournment tomorrow.

British Remain Hopeful

Optimism with regard to the Irish situation still was expressed in British official circles, where it was indicated this attitude was considered justifiable in lack of definite rejection of the government's terms by the Dail Eireann although it was added that reports from Dublin gave scant basis for such a view.

Eamon DeValera, it was stated, has not yet convinced the British of the sincerity of his uncompromising statements of the last two days, officials being reluctant to believe an offer which to them appeared so generous would be rejected outright.

The opinion, obtained in official quarters, it was indicated that the Irish leaders still are playing for time and increased prestige at home and abroad as a result of formal opening of the Dial Eireann and its business like conduct of affairs, and to this there is no objection from London if it proves to mean continuance of the negotiations.

As to the truce being broken and the warfare of a month ago resumed, officials stated that in their view there was not a chance of such a thing occurring.

### MARRIAGE LICENSES

Ray R. Kelley and Miss Elma Esther Foster, both of Greencastle.

Ralph G. Jeffries and Miss Ivy A. Everman.

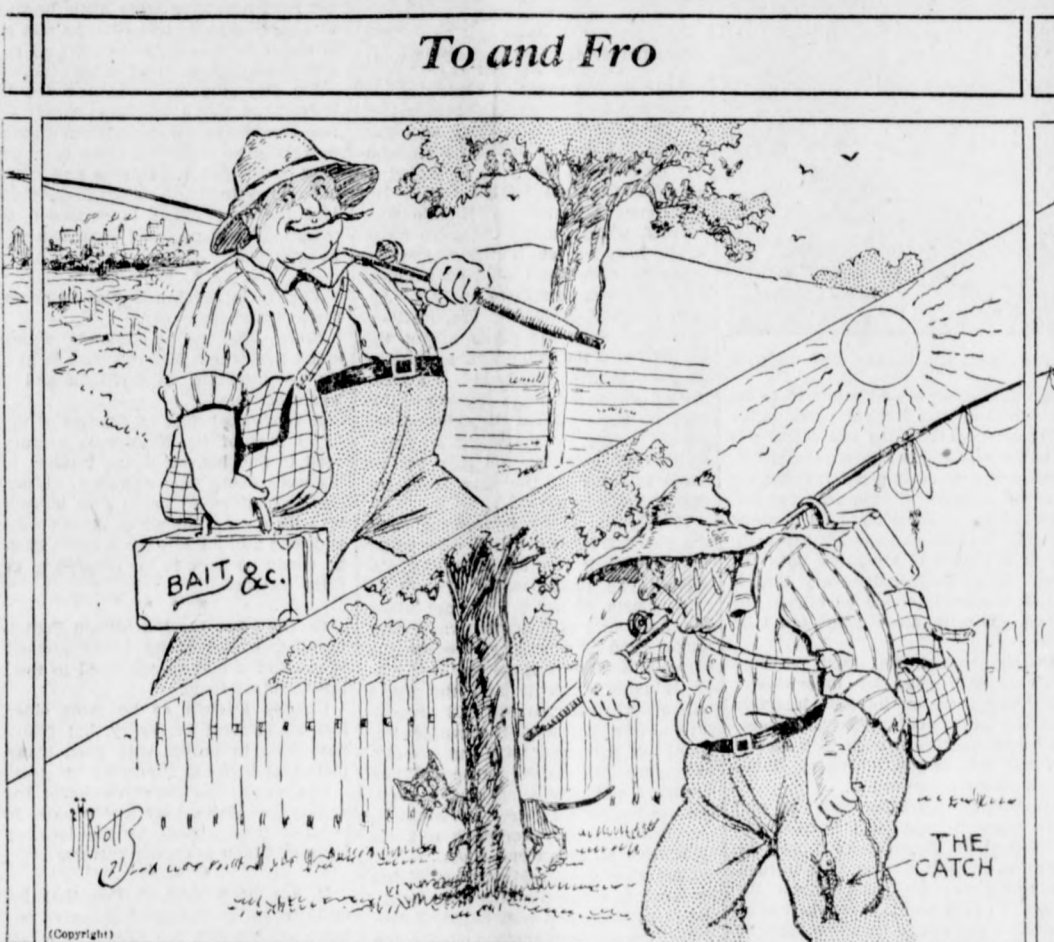

### THE GREAT WHITE PLAGUE

Of all plagues that have afflicted the world none is more deadly than tuberculosis, the "Great White Plague." Other plagues, ancient and modern, have swept a country or community for a few weeks, months or years, striking down their victims. Tuberculosis has kept up its ravages year after year for more than 2,500 years.

Here in the United States tuberculosis kills 150,000 persons each year. There are at least 1,000,000 active cases of tuberculosis in the United States. Inactive cases may at any time be transformed into active cases by weakness due to some other disease, or by a cold, or some unusual physical strain.

No disease is more insidious than tuberculosis. It strikes silently and often has been at work long before it is discovered.

Tuberculosis is a preventable disease, it is possible to stop the awful sacrifice of 150,000 lives a year. To do this individuals must co-operate with the agencies that are now fighting tuberculosis. Fresh air, cleanliness, destruction of the germ laden sputum of consumptives and whole, some food are necessary in prevention as well as cure.

## WILL SLOW UP STATE HIGHWAY IMPROVEMENT

COMMISSION NOT DISPOSED TO PUSH WORK UNTIL RAILROADS REDUCE RATES—ROAD MATERIAL COMPANIES HAVE SHOWN WILLINGNESS TO CO-OPERATE IN WORK

INDIANAPOLIS, Aug. 19.—The state highway commission is opposed to any extensive program of construction until such time as the railroads "show a disposition to co-operate," by reducing rates, Lawrence Lyons, director said today.

"Road material companies have shown a disposition to co-operate with the state highway commission to reduce the cost of road building and maintenance but the railroads have not," Mr. Lyons said. "In view of this condition, the commission has gone on record as opposed to an extensive program of construction until such time as transportation companies will co-operate."

Mr. Lyons pointed out that recently the commission contracted for two sections of federal aid roads at \$37,000 below the engineer's estimates "proof in itself that materials are declining." He cited a situation developing recently at Columbus where he said the commission paid \$402 for gravel and the railroad charged \$524 to haul it to Crothersville of about 34 miles.

Good stone for road work can be purchased for approximately 30 cents a ton and gravel for 50 cents a ton, Mr. Lyons said, adding: "The railroads are asking from 84 cents to 1.26 a ton to transport materials to parts of the state."

### O'HAIR FAMILY HOLDS FORTY EIGHT ANNUAL REUNION ON THURSDAY

More than a hundred people attended the forty eighth annual reunion of the O'Hair family held Thursday at the home of Mr. and Mrs. Oscar O'Hair, one mile north of Brick Chapel.

This family has celebrated more family reunions than any other family in Putnam County. The first of the reunions was held forty eight years ago by the father of Robert L. O'Hair of Greencastle. The scene of the reunion is the old home place of the O'Hairs.

As usual a fine dinner was served at the noon hour. Speeches were made by members of the family and a short program was given by the children. Three automobile loads of O'Hairs from Charleston, Ill., attended the reunion.

Joe H. Davidson of Coatesville was in Greencastle Friday on business.

### ROBERT HOFFMAN IS MARRIED WEDNESDAY IN INDIANAPOLIS

Robert Hoffman of Greencastle and Miss Beulah Griggs of Indianapolis were united in marriage at 8 o'clock Wednesday night at the home of the bride on Sherman Drive. They left immediately after the wedding for northern Minnesota where they will spend their honeymoon. They will be at home in their newly furnished cottage on north Indiana street, Greencastle, after August 25. Those from Greencastle who attended the wedding were Mrs. Mary Hoffman, mother of the bride, groom; Mrs. Almada Brackney, sister and Miss Mary Hoffman sister.

Friends of the bride gave a wedding shower at her home in Indianapolis last Saturday. Mr. Hoffman became acquainted with his bride two years ago in Indianapolis.

Rev. A. J. Ragsdale of Indianapolis read the ceremony. The attendants were Miss Mary Hoffman, sister of the bridegroom and Miss Della Griggs, sister of the bride. The best man was Charles Umbenhauer.

Rev. and Mrs. A. M. Hootman will be among those from Greencastle who will attend the annual conference of the Disciples of Christ to be held from August 29 to September 4 at Lake Winona. Last year the conference was held in Kansas City.

Rev. and Mrs. A. M. Hootman and Mr. and Mrs. Millard Hootman motored to Brazil Friday to attend the chautauqua. David Dugan, a friend of the Hootman family, sang at the chautauqua Friday afternoon. Mr. Dugan is a neighbor to Mr. and Mrs. Reddick in New York. Mrs. Reddick was formerly Miss Irma Hootman.

Rev. A. M. Hootman will speak both in the morning and in the evening next Sunday at the Stilesville Home Coming.

A new Reo Speed wagon truck has been purchased by the King of Peanut Cluster Company.

Fred Williams of St. Louis, an attorney and a graduate of DePauw University was in Greencastle for a short time Friday.

Three new Chevrolet touring cars were received Friday at the Hawkins Garage.

Virgil McCamack and Shelton are the plaintiffs in a damage suit filed in the Putnam Circuit Court against William D. Coffey of Indianapolis. Damage in the sum of \$150 is asked by the plaintiffs.

An Essex touring car will be sold Saturday afternoon at the Sheriff's sale in Greencastle along with some land in Roachdale, Reelsville and a plot located between Manhattan and Putnamville. Dobbs & Vestal will be the auctioneers.

## NO ARRESTS OF INTERURBAN MEN YET REPORTED

COUNCILS ACTION IN ORDER, ING MARSHALL TO ARREST EVERY MOTORMAN WHO VIOLATES CITY SPEED ORDINANCE HAS NOT BEEN PRODUCTIVE—THE CITY SOLONS ARE PEEVED

Peeved because the T. H. I. & East Traction company, when it learned of the plan of the city council to pave Seminary street, surrendered its franchise, thereby relieving itself of the obligation to pay for one third of the pavement, the city council at its last meeting ordered the city marshal to arrest every motorman on the traction line who violated the city ordinance which prohibits a speed of more than 8 miles an hour.

But as yet the city marshal has failed to make any arrest. Whether the council was only bluffing or whether it really intends to put a clamp on the speed boys remains to be demonstrated.

Certainly the traction cars are exceeding the 8 mile an hour limit.

### FINCASTLE

Miss Leslie Petty is visiting her sister Miss Nona Petty.

Alonso McGaughey and wife and Emerson McGaughey and wife spent Wednesday visiting relatives near Newport.

Mrs. Ruth Dodg and daughter attended the Rockville Chautauqua and were the guest of Mr. and Mrs. McMullen.

Judge F. L. Williams and wife of St. Louis and Attorney R. H. Williams and family of Crawfordville are spending the week with their father and sister J. C. Williams and daughter, Eva.

The Country Club of this place met with Mrs. John Williams Wednesday afternoon.

The Leaton Reunion was held at the home of Landy Brothers Sunday and many were there from a distance. The attendance being about 100.

J. L. Bridges and wife, Judge Williams and wife, Robert Williams and family, J. C. Williams, Miss Eva Williams, Ira Foster and family took dinner Tuesday evening with Mr. and Mrs. Frantz Myers and family of Ladoga.

Church Services here 2nd and 4th Sunday, Pastor Dr. E. L. Eckhart of DePauw University.

Kenneth McVey of Coatesville has accepted a position in the Central National Bank. He formerly was employed in the State Bank at Coatesville.

## TWO POULTRY CULLING DEMONSTRATION GIVEN IN WEEK BY JACKSON

A large crowd attended the poultry culling demonstration given Thursday afternoon at the home of Walter Beam in Jackson township by Charles A. Jackson, county agent. Fifty three culls were found in the flock, 48 medium layers, and 10 good laying hens. County Agent Jackson held another demonstration Friday afternoon at the home of Charles Webster in Russell township.

## I. C. C. ALLOWS 7 1-2 CENT RATE CUT IN INDIANA

AUTHORIZES REDUCTION IN CENTRAL DISTRICT IN FREIGHT CHARGES ON PRODUCTS AT ATLANTIC PORTS—AGRICULTURE IS HARD HIT

WASHINGTON, Aug. 18.—Railroads were authorized by the Interstate Commerce Commission today to establish rates on grain and grain products from Chicago, Mississippi river crossing and points in Illinois, Indiana and other states to Atlantic ports for export at 7 1/2 cents a 100 pounds less than the present rate. The rates may be established on ten day's notice.

The commission also approved a reduction of 5 cents a 100 pounds in export rates on flour from Buffalo to Atlantic ports when manufactured from grain brought into Buffalo by the lake route.

Rates Injure Agriculture

Railroads must share with the farmers and other the burden of the present economic situation by reducing rates, Secretary Wallace told the commission.

High freight rates practically have stopped production the secretary said adding that if the present situation continued production from the farms would be reduced materially.

"We can not afford to let our agriculture be destroyed," he declared. "In attempting to relieve the distress of the farmers we are dealing with great economic forces. All our people ought to share the burden of the present depression."

DELTA THETA TAU GIVES LAWN PARTY

A very delightful lawn party was given by the Delta Theta Tau Sorority on Thursday night at the home of Miss Helen Sallust. The lawn was beautifully decorated with Japanese lanterns and balloons. The featuring entertainments were card playing and dancing. The party was very informal and served as a get together for the girls and their friends and also allowed the new pledges to get better acquainted with the patronesses.

Punch and wafers were served during the entire evening. Those present were: Helen Sallust, Paul Kepner, Francis Rector, Lawrence Ellis, Helen Grose, Tom McLean, Gertrude Cook, Murray Mendenhall, Cena Brothers, Ross Runyan, Bonnie Moffett Frank, Butterfield, Mildred Gardner, Jim Hardy, Mildred Pan, chaul Richard Taylor, Eileen Brown, ing, Ralph West, Margaret Bicknell, Henry Chillas, Mildred Hurst, Wilbur Donner, Pauline Taylor, Douglas Meyers, Ruby Wright, Al Bloodgood Pearl Gibson, Jewel Allee, Lillian Daniels Sam Hannah, Adelaide Thomas, Bill Hannah, Mr. and Mrs. McLaughlin, Mr. and Mrs. Ed Jones, Mr. and Mrs. Ernest Stoner, Mr. and Mrs. Cleve Thomas, Mr. and Mrs. W. O. Timmons and Mr. and Mrs. Fred Walker.

Miss Leslie Petty is visiting her sister Miss Nona Petty.

Alonso McGaughey and wife and Emerson McGaughey and wife spent Wednesday visiting relatives near Newport.

Mrs. Ruth Dodg and daughter attended the Rockville Chautauqua and were the guest of Mr. and Mrs. McMullen.

Judge F. L. Williams and wife of St. Louis and Attorney R. H. Williams and family of Crawfordville are spending the week with their father and sister J. C. Williams and daughter, Eva.

The Country Club of this place met with Mrs. John Williams Wednesday afternoon.

The Leaton Reunion was held at the home of Landy Brothers Sunday and many were there from a distance. The attendance being about 100.

J. L. Bridges and wife, Judge Williams and wife, Robert Williams and family, J. C. Williams, Miss Eva Williams, Ira Foster and family took dinner Tuesday evening with Mr. and Mrs. Frantz Myers and family of Ladoga.

Church Services here 2nd and 4th Sunday, Pastor Dr. E. L. Eckhart of DePauw University.

Kenneth McVey of Coatesville has accepted a position in the Central National Bank. He formerly was employed in the State Bank at Coatesville.

## ONE DIES AS RESULT OF MOTOR WRECK

JIM WILBURN IS REPORTED TO BE DEAD AT ST. ANTHONY'S HOSPITAL IN TERRE HAUTE—INVESTIGATION COMMISSION VISITS SCENE OF ACCIDENT, IT IS SAID

Jim Wilburn, who suffered a fractured skull in the motor car accident Thursday morning on the Big Four Railroad, is reported to be dead at the St. Anthony's Hospital in Terre Haute as a result of his injuries.

It was also reported that it was necessary for the right leg of John Wilkus to be amputated at the hip. Wilkus suffered a broken right thigh in the accident.

Carmody Mockowitz who suffered an injury to his right leg in the accident, was taken to the St. Anthony's Hospital in Terre Haute Thursday afternoon. It was not thought necessary to take him in the morning.

An investigation commission sent out by the Big Four railroad is said to have visited the scene of the accident Friday morning. What they discovered or desired has not been learned.

## AUTO POLICE ARE GETTING RESULTS

HUNDREDS OF AUTOISTS OPERATING ON OLD LICENSES HAVE BEEN FOUND

INDIANAPOLIS, Aug. 19.—Because of the activities of the new state auto police it has become necessary for the state to order 15,000 additional license plates, according to the announcement tonight of H. D. McClelland, chief of the auto license department of the Secretary of State office.

Hundreds of autoists operating their cars on old licenses have been found, he declared, as also persons operating two cars on a single license. Localities in which the discoveries have been made were not made public by Mr. McClelland.

Mr. and Mrs. T. M. Sears, Mr. and Mrs. Alec Sears and Miss Eula Clyde Sears motored to Lafayette Friday.

Dr. and Mrs. W. R. Hutcheson, Mr. and Mrs. Earl Runyan and Mr. and Mrs. Bence Daggy enjoyed an ice cream supper Thursday evening at the home of Mr. and Mrs. Paul Jackson. The ice cream was home made.

Hiram Callendar, local contractor, is repairing the front of the Longdon block on Washington street where a keystone recently fell to the sidewalk from the third story.

### HOG RECEIPTS, 6,500; PRICES 35 CTS HIGHER

Indianapolis Hog prices Friday 35 cents higher with sales from \$9.25 to \$10.35 and generally \$9.50 down and some \$7.50 down.

Cattle were steady. Calves were steady at \$10.50 down. Sheep and lambs were steady best lambs being \$9.50.

### JUSTICE AND THE JUDGE.

I wonder how the judge can learn  
To hold the balance firm and straight;  
He must be solemn, strong and stern  
In ordering the sinner's fate;  
He must not look beyond the mask  
Of silliness the culprit wears;  
The judge's is a heavy task,  
For sympathy awakens many snares.

I watch a little boy at play,  
I hear him sing his little song;  
His thought is pure, his spirit gay,  
He has not learned that wrong is wrong.  
How innocent his pleasures are!  
His rosy cheeks I fondly pat,  
And toss him high and swing him far—  
The criminal was once like that.

The judge must wear a solemn frown,  
And let his words like lashes sting;  
He sees the culprit shrinking down,  
A faded and degraded thing;  
If I were judge I'd be too mild,  
I fear, in finding punishment,  
Or I'd be thinking of the child  
That once was glad and innocent.

—By S. E. Kiser, in Good Housekeeping.

## The HERALD

Entered as Second Class mail matter at the Greencastle Ind. postoffice.

Charles J. Arnold, Proprietor  
PUBLISHED EVERY AFTERNOON  
Except Sunday at 17 and 19 S. Jackson Street, Greencastle, Ind.

Obituaries.  
All obituaries are chargeable at the rate of \$1 for each obituary. Additional charge of 5c a line is made for all poetry.

## MOVES BACK TO 13TH CENTURY

Turkish Nationalists Shift Their Capital to Sivas.

### ONCE AN IMPORTANT CITY

Armenian Kings Ruled It for a While and Under the Byzantines It Was the Second Most Important City in Asia Minor—in Marco Polo's Time It Was One of the Show Places of the Near East—Sivas May Be a Turkish Ruhr or Selesia.

"If the so-called 'Angora government' of the Turkish Nationalists has left Angora and shifted its capital to Sivas, as dispatches state, following the defeat of its armies by the Greeks in Asia Minor, it has truly moved into the Turkish back country," says a bulletin from the Washington, D. C. headquarters of the National Geographic society. "In fact it might almost be said to have moved from the Twentieth century into the Thirteenth. Angora is the rail head of the only steel highway that penetrates northern Asia Minor. Beyond this outpost of the age of machinery the country is wholly dependent for transportation on the camel and other beasts of burden, operating over roads that are far from good. Sivas lies more than 200 miles south of the Black sea.

"The city exists, however, in a region that reached a very high state of development long before the smoke of puffing locomotives ever darkened an Asian landscape, and it is no mean city, as cities go in its part of the world. It is credited with a population of 65,000, and is therefore of about the size of Little Rock, Ark., and Sacramento, Cal., cities with which it has the further point in common that it is the capital of a 'state' or vilayet.

May Be Turkish Ruhr.  
"Sivas is situated on a high plateau which is bleak and even frigid in winter when the blasts from the steppes of central Asia swirl around and over the Caucasus and give the region a climate comparable to the snow-swept plains of Russia. But it is by no means a waste country. The grain of the plateaus of the vilayet of Sivas and the fruits from its valleys help to feed the less favored sections of Turkey. It is rich in copper, iron, coal and other valuable minerals, and if an industrial Turkey ever rises Sivas may be its Silesia or its Ruhr.

"When Rome was the ruling power in the world, Sivas (then Sebastia) was one of its chief border cities. Armenian kings ruled it for a while, and under the Byzantines it was the second most important city in Asia Minor, being surpassed only by Caesarea to the southwest.

"If in a 'union station' for camel caravans in the Bagdad of Marun-al-Rashid's day there was the counterpart of the train-crier of today, Sivas must have been often on his lips, for it lies in a strategic position between Bagdad and 'points west.' A few years later it became the metropolis of the Seljuk Turks' empire in Asia before they moved westward and captured Constantinople.

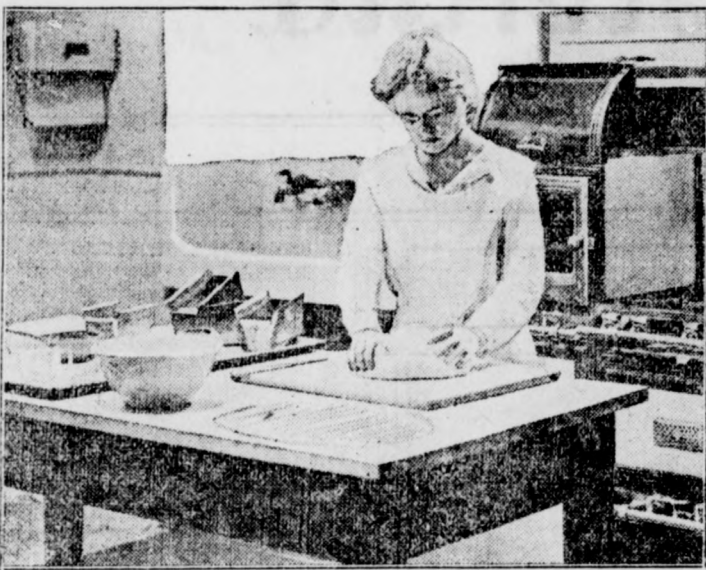

"When Marco Polo visited the city in the Thirteenth century it was one of the show places of the Near East and had a population of about 100,000. At that time the city was noted for its fine rugs and carpets, but now that industry has passed farther west.

One of Most Heartless Acts in History.

"When the Seljuks had the seat of their empire in Sivas their architectural arts flourished. The colleges which they built there in the Thirteenth century are among the finest remains of Moslem art to be found in Asia Minor.

"Perhaps the most despicable act of cruelty ever perpetrated on a sacked city, even in a part of the world where cruel tyrants have been numerous, was inflicted on Sivas in 1400 by the notorious Timur the Lame. He caused a thousand children to be trampled to death under the hoofs of his war horses, and followed this monstrous proceeding by having 4,000 of the defeated Armenian defenders of the city buried alive. Since it went through that harrowing experience the city has never risen to a position of any great importance."

## YEAST BREAD MOST DELICIOUS WHEN LOAF IS WELL PREPARED

First Kneading Mixes Ingredients—Second Improves Flavor and Texture.

(Prepared by the United States Department of Agriculture.)  
A well-made loaf of bread is a source of satisfaction as long as it lasts. A burnt or pale loaf with a soggy interior tempts none but the starving. The following directions for making yeast bread are given by food specialists in the United States Department of Agriculture. If the directions are followed carefully, a delicious loaf is the result.

**Cleanliness Essential.**  
Everything connected with the process of bread-making should be scrupulously clean. All utensils, therefore, should be washed carefully; the liquids should be scalded; the dry materials should be kept from the dust; liquid yeast should be kept cold and well covered; the hands should be washed and the nails cleaned before they touch the dough. Wooden toothpicks, which can be used for cleaning the nails and then thrown away, are a convenient part of the equipment for bread-making.

In making stiff dough out of the sponge, or out of the liquid containing yeast, the flour should be added gradually, and what is more important, the dough should be beaten thoroughly, or when it gets too stiff for this, kneaded, after each addition of flour. If this is not done, too much flour is likely to be added and this spoils the texture of the bread. The time to stop putting in flour is when the dough can be kneaded without sticking either to the hands or to the board, even when they are unfloured. If for any reason more flour than this is added, the dough should be softened again by means of water or milk.

Beginners often have difficulty in determining when the dough is ready to be divided into loaves and put into pans. A good rule is to measure its volume. When it is ready to be made into loaves, the dough for each loaf, if made out of hard-wheat flour, should amount to three pints; if made from soft flour, to about two and one-half pints.

**Recipe for Two Loaves.**  
2 cups lukewarm milk, water, or a mixture of them.  
1 cake compressed yeast.  
Or 1/2 cup lukewarm milk, water, or mixture of them.  
1/2 cup liquid yeast.  
2 teaspoons salt.  
2 tablespoons sugar.  
Pat, if used, 2 tablespoons.  
Or 1/2 cup sifted flour.  
Boil the water or scald the milk. Put the sugar and salt (and fat, if used) into a mixing bowl. Pour the

## BROOMS AND BRUSHES REQUIRE RIGHT CARE

Keep Weight Off of Bristles. Straws or Strings.

Specialists Recommend That Bristle Brushes Be Washed in Lukewarm Water and Ammonia—Drying Should Be Hastened.

(Prepared by the United States Department of Agriculture.)

Brooms, brushes, and mops should be hung by strings or screw-eyes fastened to the handles so that the weight does not come on the bristles. The hair and lint that accumulate in brushes, especially in carpet sweepers, may be taken out with an old buttonhook, a coarse comb, or old scissors. Corn brooms may be washed in hot soapwater, but care must be taken not to let water rust the wires which hold the straws to the handle.

Household specialists of the United States Department of Agriculture recommend that bristle brushes be washed with lukewarm water and a little ammonia (three teaspoonsful dilute ammonia to the quart) or borax (one teaspoonful to the quart) and then rinsed in clear water. Water is likely to injure the back of a brush and to loosen the cement by which the bristles are held in place in the less expensive makes. The brush, therefore, should not be covered with water but be washed by sousing the bristles back and forth in shallow water; it should be dried with the bristles down or with the weight resting on the side of the brush. The drying should be done quickly, but not in an intense heat. Drying in sunshine whitens light bristles. The weighted bristle brush used in polishing floors should be washed occasionally to prevent the

accumulation of dirt, and wax from darkening the wood.  
Mops may be washed in hot suds and rinsed in clear, hot water; they should be quickly dried. Dry mops may be oiled, or oiled ones renewed, by pouring a few drops of light lubricating oil or any good floor oil, into an old dish or a tin box and setting the mop on this for a day or two; or the mop may be sprinkled with a little oil and allowed to stand until the oil spreads through the strings.  
Dustcloths should be washed frequently, both because a little dirt comes out more easily and because dirty ones often leave as much dirt as they take up, and may scratch highly polished surfaces.  
The heavy woolen cloths used in polishing floors may be soaked for an hour or more in hot water and soda, using three tablespoonfuls of soda to a gallon of water, and stirring the cloths occasionally with a stick; then they should be washed in hot soapwater and finally rinsed in hot water; a little kerosene or light lubricating oil added to this last water will soften the cloths.

## All Around the House

A stuffy, dusty, overcrowded attic attracts pests of all kinds.

There is no better vegetable than kohlrabi for the vacation garden.

A bit of thyme added to the filling for a fowl will give a good flavor.

Even a spoonful of cereal is worth saving to thicken soup, gravy or sauce.

At least one window on each side of the cellar should be propped open for ventilation, and the window, of course, screened.

## LATE VARIETIES OF FRUITS FOR DRYING

Apples Should Be Reasonably Mature but Not Soft.

Care Should Be Exercised in Picking and Handling to Avoid Bruising—Get Peeled Product into Evaporator Quickly.

(Prepared by the United States Department of Agriculture.)

Late winter varieties of apples and pears are best for drying because they are sweeter than the early varieties. Apples for drying should be reasonably mature but not soft, according to specialists of the United States Department of Agriculture. Handle with care in picking and hauling so as to avoid bruising, as bruised spots become discolored and must be trimmed off to make an attractive product. Apples discolor rapidly. Preparations, therefore, must be made to get the product into the evaporator as rapidly as possible after it is pared. If a number of people are doing this work, this may be accomplished by dividing the paring, coring and spreading on trays, so that an apple spends only two or three minutes on the way from the paring knife to the drier.

If only one person is working, drop the pared fruit either into cold water or into a salt solution made by dissolving one tablespoonful of salt in four quarts of water. Do not allow the fruit to stand in the water any longer than is necessary, because the water will dissolve the sugar and other valuable elements and the apple will absorb water, which will necessitate longer drying in the evaporator. Carefully pare and trim the product to remove all discolored places. When a paring and coring machine is used, the apples, before being placed in it, should be worked over with a knife to remove all discolored spots.

Care should be taken when slicing by hand to make the slices as nearly the same thickness as possible. Three-sixteenths to one-fourth inch is the best thickness. Apples may be quartered or cut into eighths, but they do not dry so uniformly or so quickly as the sliced rings. The rings may be blanched in hot water or not as desired. Spread the rings in a single layer on trays and place either in the sun or in a warm drier. Apples when drying should be covered with muslin or mosquito netting to prevent insect infestation. A few minutes' exposure will often cause the products to be infested.

Dried apples that are brown or chocolate colored from the discoloration resulting from drying without blanching possess as high nutritive value and often have a better flavor than the more attractive-looking blanched products.

Dried apples will not be brittle when finished, but if a handful of the pieces are pressed together they will feel elastic and springy and will separate promptly when released, leaving no moisture on the hands. When one of the pieces is broken in two, it should not be possible to press moisture out of the center.

## Household Questions

Once a year every cellar should be whitewashed to sweeten it.

Old tins with rancid water in them are famous mosquito breeders.

Spinach with carrot balls is an attractive and wholesome mixture.

If pies are brushed with milk before baking they will turn a delicate brown.

Keep honey in the dark. If exposed to the light it will quickly granulate.

A whiskbroom is very handy for cleaning woodwork and removing dirt from corners.

If your oilcloth is dingy it can be brightened by washing it with water in which a little borax has been dissolved.

If grease is dropped on the kitchen floor put soda on it, then pour boiling water on, and the spot will come out easily.

A handy article about the kitchen is a long-handled spoon such as is used at the soda fountain for ice cream sodas.

The kitchen floor is best covered with linoleum, cemented to the floor to prevent it from buckling and to make it waterproof.

If children's light or white suits become faded or streaked it is a good idea to dye them some darker color suitable for play clothes.

Snap dress shields instead of sewing them in. Place a snap on each end of the shield and one in the middle. It keeps them where they belong.

White of egg is nourishing and should be given freely to invalids. Beat it slightly and add to tea or coffee; or it may be stirred into any kind of farinaceous food just before serving.

## Something to Think About

By F. A. WALKER

### WHAT A MAN READS.

SOMEONE has said that Charles E. Hughes, the secretary of state, did not read novels or verse while he was at the university, and that he was so absorbed in science as to miss all the poetry and romance of college life.

To disprove this statement the librarian of the John Hay library at the recent commencement of Brown university showed in a glass case the very books that Mr. Hughes had taken out. They included the regular novelists that everybody is supposed to read, and such poets as Tennyson and Longfellow.

Variety in reading is just as necessary as variety in food.

Some good people did not understand this when they objected to novels on principle as frivolous and a waste of time.

A celebrated man of science of the latter part of the Nineteenth century used to find himself losing interest in his work every now and then. When this took place he would shut himself up with a great supply of dime novels and read nothing else for a week. Then he would go back to his laboratory as fresh as ever.

On the other hand, a certain French novelist, whenever he found himself in need of a mental rest used to read the Criminal Code.

Charles Darwin as he grew older lost all interest in poetry, but found recreation in novels with good lively plots that held his attention.

One reason why detective stories are so popular with all sorts of readers is because they appeal to the love of mystery which is almost universal.

It has been said of Poe that he would have made a good detective because of his gift for fitting together a criminal mystery. The idea was that he would have been able to take criminal puzzles to pieces as well as put them together. One side of his work kept him interested in the other. When a boy is at school or college his reading is divided into two sorts—"voluntary" and "involuntary." He reads for pleasure and he reads for business.

As nobody's education is ever finished the same division should mark later life.

Mrs. Asquith in her celebrated "Autobiography" tells how she belonged to a sort of society the members of which agreed to do an hour's serious reading every day.

Doctor Johnson said that if a man read any subject for an hour daily he could not help becoming "learned." His own great difficulty was that he was unsystematic.

By reading certain things for recreation and at the same time following a course laid down in advance, a person gets the additional benefit of discipline.

In the Eighteenth century they thought nothing of reading through Homer, Virgil and Shakespeare once a year. No wonder they were able to think in those days.

## THE GIRL ON THE JOB

How to Succeed—How to Get Ahead—How to Make Good

By JESSIE ROBERTS

### TRAINING SALESWOMEN

IT WAS a thriving little store in a small village in New England. I had some chintz to get, and she was a real help in finding something, though the stock was necessarily limited. But she had taste, and a sense of color, and she was interested.

I found that she had graduated that year from high school, and gone into the store to earn money during the summer, and that she meant to go to the city and try for the position of saleswoman in one of the large department stores. She asked me what I thought of her chances.

I advised her to go to the highest-class store of the kind she wished to work for.

"Take a lot of pains with your appearance. Remember that you are not only applying for the job that is now open to you, when you are ignorant and untrained, but for the job in the future when you have got your training and when you know your possibilities."

There are splendid opportunities for saleswomen nowadays. It is one of the big professions now open to women. But it is a difficult one, with much competition and an almost endless amount of training. It requires hard work and natural aptitude. I think the girl I met that day is going to succeed. She had the right idea and the love for it, too. But don't think, when you hear of the big salaries and wonderful opportunities in this profession, that you can get these without deserving them.

(Copyright.)

A Sarcastic.

"You must admit that your political antagonist uses good English."  
"He ought to," replied Senator Sorghum. "His ideas are so slight that he doesn't have to think about anything but the grammar."

Dainty Ann Forest, leading woman in the "movies," is of Danish birth and possesses the blue eyes and the blonde hair of the North. She has recently been seen in some of the prominent productions.

## HOW DO YOU SAY IT?

By C. N. LURIE

Common Errors in English and How to Avoid Them

"MAD" AND "ANGRY."

FEW words are more frequently misused than "mad" and "angry." It must be confessed, however, that there is some excuse for the misuse of the words, since many psychologists hold that it is difficult to tell, when the emotions of a person are aroused, just where anger ends and madness begins. But in grammar there is a sharp distinction between "angry" and "mad." The former means to be vexed or out of patience, while the latter indicates madness, insanity. A person who is insane is mad, but a person whose mail is delayed is not mad, but merely angry. There is a figurative use of the word "mad"—that is, a use in which the words are not to be taken literally—such as "mad with pain," "mad with terror," etc.

"I am mad at that fellow," says a man; "he cheated me in a stock deal." He should say, "I am angry at that fellow," etc.

(Copyright.)

## How It Started

THE KODAK.

(Copyright.)

IN 1732 J. H. Schultze accidentally discovered that silver chloride was darkened by light. Hellet, in 1737, made the same discovery about silver nitrate. Wedgwood, in England, made silhouette profiles by the use of this chemical. In 1839 Herschel discovered the fixing solution, or "hypo." These independent discoveries were united in 1840, when Miss Dorothy Catherine Draper posed for the first picture ever taken. The next year Talbot discovered the developing fluid, and the art of photography was born. The invention of the roll film instead of the glass plate started the kodak.

## Increase in American Egrets.

A gratifying report telling of an increase in American egrets noted on a plantation on the Cooper river in South Carolina has been received by the bureau of biological survey, United States Department of Agriculture, from a correspondent there. Two years ago, the writer said, he saw on his plantation two birds of this variety; last season he counted ten; and this year he found twenty-nine on two different occasions. Officials express themselves as much pleased with such results of the protection afforded migratory birds under the federal bird treaty act.

## The Scrap Book

### ALPHONSE WAS ON HIS WAY

Under the Circumstances He Naturally Felt the Call to Duty Was Imperative.

"Alphonse," said the heiress, "I have been seriously thinking."  
"Thinking of me, precious?" asked Alphonse.  
"Indirectly, yes. I have been thinking that if you married me, everybody would say you only did so in order to get my money and control of my property."  
"What do I care for the unthinking world?"  
"But, Alphonse, I will marry you."  
"My own dear—"  
"And I will not have people say unkind things about you, so I have arranged to give my fortune to the missionaries. Why, Alphonse, where are you going?"  
Alphonse paused long enough on his way to the door to look back and mutter: "I'm going to be a missionary."

## LOVE'S PROOF

She: Can you give me a proof of your love?  
He (kissing her): Well, there's an imprint on it.

### New Unknown Mineral.

A new mineral of the New South Wales coal fields, mentioned by a correspondent of the Chemical Trade Journal under the names of fibroferite and mullide, has been both arousing great expectations and by spontaneous combustion causing much trouble in the mines. Great quantities are said to exist, estimates of its value differing widely. Chemical investigation seems to suggest that it may yield a valuable supply of dyes and other products now imported, and one mine manager considers it even more valuable than coal.

## LOCAL NEWS

Hylton Mendenhall and R. E. Ruel of Indianapolis are visiting at the Lambda Chi house.

Miss Alice Thompson will leave Saturday night for Chicago where she will spend a few days transacting business.

Roy Pollom and Roy Pine of Brazil were in Greencastle Friday on business.

Frank Gifford and Basil Fruit purchased the Urbas Hedge Restaurant at Bainbridge.

Guy Quick of Crawfordsville was in Greencastle Thursday on business.

The O'Hair family reunion was held Thursday at the home of Oscar O'Hair two miles north of Brick Chapel. Among those who attended from Greencastle were Robert L. O'Hair and Mr. and Mrs. Henry O'Hair and family.

Dr. and Mrs. E. Hawkins have returned from a ten days vacation spent in Martinsville.

Dr. J. H. Taylor of Indianapolis was in Greencastle Friday on business. He formerly lived in Greencastle.

Born Friday to Mr. and Mrs. Harold Sears a boy.

Dick Smith who is employed at the State Farm is on a vacation on account of having two of his fingers broken on his right hand. He will spend the week end in Illinois.

Eugene Allan, 8 year old son of Mr. and Mrs. H. E. Allan, fractured both bones of his left forearm at noon Thursday when he fell from a bicycle. The fracture was reduced by Dr. W. R. Hutcheson. Just five weeks ago to a day the boy's arm was accidentally fractured in the same place.

George Christie, A. B. Hanna, A. G. Brown and Earl Harris drove to Indianapolis this morning.

Gordon Sayers is celebrating his 9th birthday anniversary this afternoon with a regular boys party at his home on Washington street.

Dr. and Mrs. Eugene Hawkins have returned from a week's stay at Martinsville.

Mrs. F. A. Arnold and Mrs. Edna Lockridge expect to come home from Bay View the latter part of next week.

The Longdon building on Washington street is being repaired following the falling of a large key stone from over the top of a third story window a few days ago. The stone is being replaced and other loose stones are being re-set. A leak in the roof of the building is responsible for the loosening of the stones and the repair work is being started at the roof.

The rains of the past few days have been a great boon to the farmers. Fall pastures now are in fine shape and are getting better each day. This will greatly aid the farmers as the pastures were all gone and many farmers were feeding their stock grain and hay when the rains began.

Dr. R. J. Gillespie was in Indianapolis Friday on business.

D. B. Caughthran was in Cloverdale Friday on business.

Ferd Lucas, C. C. Gautier and H. P. Wells returned Friday from a fish trip. They have been spending the last five days on the Kankakee River near Thayer, Ind.

Mr. and Mrs. Ray Smith are visiting relatives in Fillmore. Mr. Smith is enjoying a week's vacation from his work as foreman of the mechanical department of the local Ford agency.

Mr. and Mrs. Raymond Riley and family will leave Monday for Blue Bluffs where they will enjoy a week's outing. Mr. Riley is a salesman at the J. Sudraski & Company Grocery.

Miss Jean Lineberger, saleswoman in the dry goods department of the J. Sudraski Department Store will spend next week in Terre Haute.

Charles M. Moffett was in Indianapolis Friday on business.

Mr. and Mrs. John Layman of Madison township were in Greencastle Thursday on business.

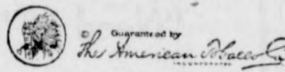

Mr. and Mrs. Leonard Sutherland and family will spend Sunday in Lebanon. He is a salesman in the clothing department of the Sudraski Department store. They will visit Mr. and Mrs. Gunning Stewart of Lebanon.

L. T. Hurst of Indianapolis was in Greencastle Friday on business.

Mr. and Mrs. J. P. Allen, Jr. and family arrived home Friday from St. Louis, Mo. They have been enjoying a month's auto tour.

## FAWN IS BOTTLE FED

Little Animal Found Wandering Alone in the Woods.

Dr. M. R. Morris, who has a summer home near Wurtsboro Hills, Sullivan county, New York, has the consent of the conservation commission to feed a fawn that got lost from its mother in the woods. He feeds it from a nursing bottle, two bottles at a feeding three times a day.

The mother has been watched for, but has never reappeared.

## DISSOLUTION SALE

Having dissolved partnership we will sell at public sale on the O. P. Vaughn farm, 1/2 mile west of Mt. Meridian, on the National road, and 7 miles southeast of Greencastle, on TUESDAY, AUG. 23, 1921 at 10 a. m., the following described property:

## 22 HEAD HORSES AND MULES

—9 head horses, one blue roan mare, 8 years old, good worker; all harness, sound, bred to jack; one dapple gray mare, 7 years old, sound, good worker in all harness, bred to jack; one gray mare, 7 years old, sound, good worker in all harness; one brown mare, 6 years old, bred to jack, sound and good worker; one brown mare, 4 years old, sound, good worker in all harness; one brown filly, 3 years old, sound, good worker; one 3 year old horse, sound, well broke; one 8 year old horse, sound, good worker; one smooth mouth driving mare; 8 head 2 year old mules, one span of brown mules, well broke, 15 1/2 hands; one span black mules, 15 1/2 hands; one span blue mules, mare and horse, 15 1/2 hands; span bay mare mules 15 1/2 hands; two span yearling mules, span black mules, mare and horse, meaty tips; span brown mules and one sucking horse mule. These mules are all well mated and with plenty of quality and style.

18 HEAR CATTLE—One Poll Angus black cow, 8 years old; Poll Angus cow, 9 years old, good milk; 5 year old Poll Angus cow, good milk, fresh by day of sale; Poll Durham milk cow, 8 years old; Poll Durham cow, 6 years, fresh soon; Jersey cow, good milk, 7 years old; half Holstein cow, 5 years old, good milk; 7 head yearlings consisting of one 1 year old Poll Angus bull; 3 Poll Angus yearling steers; Poll Angus yearling heifer; two half Jersey yearling heifers; and one steer.

84 HEAD HOGS—21 sows to have pigs by side by side day; 3 sows to bring pigs Sept. 10; 20 head of these sows are thoroughbred Durocs; one thoroughbred Duroc Male hog, 18 months, eligible to register; spring thoroughbred Duroc male hog weighing about 80 lbs.

IMPLEMENTS—Two Sulky break plows, Deere and Moline; three walking break plows, riding cultivator, two walking cultivators, two disc harrows, two spik tooth harrows, two 5 hoe wheat drills, one disc; corn planter, Deering mowing machine, good as new; Moline binder, DeLaval No. 15 separator; these implements are all in good shape. Three good wagons, two flat top hay frames and several sets good work harness.

TERMS—All sums of \$10.00 and under, cash in hand. On sums over \$10.00 a credit of 9 months will be given, purchaser giving note with bankable security bearing 6 percent interest from date. 2 percent discount for cash. Notes not paid at maturity to bear 8 percent interest from date and will be so written in notes. No property to be removed until terms are complied with.

SEE OUR 98c Special Sale Aluminum Percolators—Double Boilers, Enamelled Coffee Pots—Dish Pans—Bicknell Hardware Co.

WANTED:—Young lady clerk at Werneke's Jewelry Store, Meridian.

## SCIENTIST GETS DOPE ON LIZARDS

Dartmouth Professor Has Big Collection of Specimens.

## AUTHORITY ON VERTEBRATES

Recognized Throughout the World as Leading Authority on Evolution of Vertebrates — His Investigations Throw Much Light on Some Ancient Structures and Functions of the Human Body—Gathers Specimens in Out-of-the-Way Places.

There is a sting in the air that sweeps down from the north over the plains of Hanover and lounging lizards lurk and leer in the light and learning of Dartmouth's academic groves. How and why one of the Dartmouth faculty brought more lizards to Hanover and got more sting from the south into his otherwise peaceful study than either he or his wife intended has been told by Prof. William Patten, professor of biology at Dartmouth.

He has worked many years on the evolution of vertebrates and is recognized throughout the biological world as the leading authority on this subject. His work on fossils, fishes and the embryology of various living animals has enabled him to reconstruct in a wholly new way the genealogical tree of the animal kingdom and to trace the evolution of man down to the lowest kind of animals.

## Throws Light on Many Things.

This revolutionary work is sure to yield important results for it throws much needed light on some very ancient structures and functions of the human body that have been very puzzling to medical men. Professor Patten reconstructed a little known group of fossils called ostracoderms and he discovered that this class formed a new class of animals connecting the lowest fish-like vertebrates with the invertebrates.

Professor Patten also showed that the ostracoderms were near relatives of the giant sea scorpions, which were the kingly of the animal world 500,000,000 years ago, more or less.

These two great classes proved to be the real missing links in evolution for they filled in by far what was the widest gap in man's ancestral history. The nearest living survivors of these very ancient animals are the little land scorpions, found everywhere in the tropics, and limulus, the familiar horseshoe crab of our Atlantic sea shores.

For this reason the limulus have long been a favorite study with Professor Patten, for it now gives us the best picture of high life as it was many millions of years ago. These facts have been fully and clearly set forth in his new book "The Evolution of the Vertebrates and Their Kin."

This long and careful study of the larger factors in evolution forms his new book on "The Grand Strategy of Evolution," which is classified by leading biologists throughout the country as one of the most significant and original contributions to biology that has appeared for years.

For these reasons Professor Patten, accompanied by Mrs. Patten, has made numerous trips to out-of-the-way places in the world in order to collect scorpions' eggs and other unusual things to assist him in his study.

On his recent trip to Costa Rica he obtained all the scorpions he needed for his work.

## Collected Plenty of Scorpions.

A few pennies were sufficient to induce native women, men and children to capture these much dreaded animals and to bring them alive to his improvised laboratory, where the eggs in all stages of development were removed, treated with special chemicals and preserved for further study.

Many other things of interest to biologists were obtained, such as birds, butterflies, reptiles and Indian pottery. Living in the tree-tops of the Central American jungle is a peculiar species of large lizard called iguana, possibly the prototype of the fabled basilisk and cockatrice. They have a curious little eye in the middle of the head like that of the scorpions. A rudiment of such an eye is still present in man, but concealed in the brain.

These extraordinary creatures form a favorite food for the natives. Professor Patten shot four of them just before leaving Costa Rica and brought them to Hanover on ice. He also brought back to Hanover some live scorpions and kept them for a while in a little glass dish on his study table until one day most of them unfortunately escaped. At last accounts they were still running about among the professor's books anxiously pursued by the professor's wife, armed with a pair of forceps.

But the professor assures his friends that while the sting of a scorpion may be painful for a short time and always somewhat discomforting, it is not fatal. Mrs. Patten was also greatly relieved to learn that they will not live long or multiply rapidly. Dartmouth undergraduates don't mind a few "lizards" on the campus.

Heart Beats After Breathing Stopped. Doctors in London, England, gave Leo Major an anesthetic. He stopped breathing, but his heart kept on beating. A pulmotor failed to restore his breath. After seven and one-half hours, heart action also ceased.

## NOTICE TO NON RESIDENTS

State of Indiana,  
County of Putnam, SS:  
In the Putnam Circuit Court, September Term, 1921, Cause No. John S. Elmore vs. Samuel Talbott, et al.

Comes now the plaintiff by Hays & Murphy, his attorneys and files his complaint herein, together with an affidavit of a competent person, that the residences, upon diligent inquiry are unknown of the following named defendants, to-wit:

Samuel Talbott, Samuel A. Talbott, Nathaniel Talbott, John Standiford, Hannah Standiford, Daniel Sigler, Mary Sigler, Moses A. R. Jackson, Ruth Jackson, Sarah Ann Talbott, Ruth Elizabeth Talbott, Samuel Adams Talbott, Bushrod Pool, Catherine B. Pool, Robert Nelson, Mary Nelson, Matthew Simpson, Ellen H. Simpson, William H. Thornburgh, Louisa Thornburgh, John W. Jones, Mary Jones, Alexander Davenport, Sarah Davenport, Margaret Davenport, Nathaniel Gerton, Margaret Gerton, Jerusha Mosteller, Ellen Davis, John P. Sinclair, Dr. Harryman, John Sutherland, Mariah Sutherland, James H. Farmer, Emily Farmer, John Hammond Elizabeth Hammond, James Houck, Ann Houck, Joel Robinson, Susanna Nelson, M. P. Nelson, John W. Houck, Lizzie Houck, Mary Ellen Austin, G. T. Austin, Albert E. Teague, Mabel Teague Lucretia Beply, John Beply, James Duffield, Katharine Duffield, Katharine Pool, Joel Robinson, James Farmer, Jane Wilson, Benjamin Wilson, John Murry, Margaret L. Murry, Loretta N. Kendall, Charles W. Kendall, James Hinkle, James L. Hinkle, Edwin Hinkle, John W. Ash, Jennie Ash, John A. Beply, Martha J. Thomas, Cyrus Osborne, John T. Fisher, Jennie A. Fisher, John Fisher, Jennie Fisher, Milton P. Nelson, Henry Davis, Harvey Mosteller, Gamaliel T. Austin, Elizabeth Houck, Richard Single, Ann Single, Josiah Robinson, Joshua Robinson and Mary Robinson, the unknown husband or wife, widow or widow, heirs, legatees, devisees, administrators, grantees and assigns of each of the above named defendants, deceased, and that they are all non-residents of the State of Indiana; that all of said defendants are necessary parties to said action; that this action is to quiet the plaintiff's title to the following described real estate in Putnam County, Indiana, to-wit:

Part of Lot Fifty-three (53) of the Railroad Enlargement to the town, now city, of Greencastle, Indiana, described as follows, to-wit: Beginning at a point on the south line of said lot Fifty-three (53), forty one and three fourths (41 3/4) links west of the southeast corner thereof; thence north seven (7) chains and forty (40) links; thence west two (2) chains and seventy three (73) links; thence south seven (7) chains and forty (40) links to the south line of said lot; thence east along said south line, two (2) chains and sixty nine and one third (69 & 1/3) links to the place of beginning. Also beginning at a point on the north line of said lot Fifty-three (53), one (1) chain and forty-seven (47) and two thirds (2/3) links west of the northeast corner of said lot; thence south two (2) chains and forty (40) links; thence west one (1) chain and six (6) links; thence north two (2) chains and forty (40) links to the north line of said lot Fifty-three; thence east along said north line, one (1) chain and six (6) links to the place of beginning, against all claims or demands of the defendants or either of them and of any person or corporation whomsoever, through or under whom any claim of title might be asserted and against the whole world. Notice is therefore hereby given said defendants and all persons whomsoever, that claim any interest in said real estate that unless they be and appear on the 25th Judicial day of the September Term, 1921, at the Court House in the same being the 3rd day of October, the City of Greencastle in said County and State and answer or demur to said complaint, the same will be heard and determined in their absence.

In Witness Whereof I have hereunto set my hand and affixed the seal of said Court at the office of the Clerk thereof in the City of Greencastle, Indiana, this 12th day of August, 1921.

HARRY W. MOORE, Clerk of the Putnam Circuit Court.

3rd, August 12, 1921

## CHILD NEVER SAW TRAIN

Little Chicago Girl Lives Near Terminals, but Has no Curiosity.

Although living within easy walking distance of five great Chicago railway terminals, Dolly Malley, thirteen years, has never seen a railroad train.

"I just never cared about going away from here," she said. "I was born and raised in this neighborhood and it's good enough for me."

## SOUND SLEEP AGAIN FOR THIS FARMER

H. B. Snively, West Farmington, O.  
Relieved of Sleeplessness and Nerves by Nerv-Worth.

"Before I commenced taking Nerv-Worth," said Mr. Snively, "I was so nervous that I could not get a good night's sleep. I have been taking Nerv-Worth only a short time, and now I can sleep well and can stand work. I have only taken two bottles, and I can certainly recommend it."

\$1.00 per bottle. Sold and recommended by R. P. Mullins, druggist

If you cannot sleep or get your proper rest, and suffer continuously from nervousness, it will only be a matter of time until your whole system will be completely run down. Nerv-Worth will overcome these conditions by aiding your nerve force, giving sound, restful sleep, aiding your digestive system and toning you throughout. Buy your first trial bottle, use it according to directions, and if you are not satisfied that it is helping you, your money will be refunded.

## SPECIAL MEETING OF COUNTY COUNCIL

There will be a special meeting of the Putnam County Council held in the Commissioners Room in the Court House, in the City of Greencastle, Putnam County, Indiana, on Saturday, August 20th, 1921, at 2 o'clock p. m., of said day to take up the preliminary work on appropriations and tax levies for the said Putnam County, for the year 1922 and other miscellaneous business.

RALPH E. KNOLL, Auditor Putnam County, Indiana

2nd, Aug. 12, 19

### CHEAP NESTS FOR CHICKENS

Take an Orange Box, Removing Top and Fasten to Wall—Keep Straw Fresh and Clean.

An orange box makes a good nest. Remove the top, put the box on its side, and nail a strip about three inches wide along the bottom front. It is preferable to fasten this box to the wall, as it takes too much room on the floor. Each box, the middle piece being left intact, makes two nests. There ought to be one nest for every four or five hens, say poultry specialists of the United States Department of Agriculture. Straw or other material used for nests should be kept clean and fresh. Be sure to keep enough straw in the box to prevent eggs striking the floor. If an egg breaks, the hen may learn to eat it, and this is a difficult habit to break.

### FARMING FOR LIVING URGED

If More Farmers Would Produce What They Need for Home Use Markets Would Be Better.

More farming for a living should be done and there will be less risk of poor markets. If most farmers would produce what they could for home use the markets would be required to take less and as a result there would be less strain on them. The way to have markets is to save and conserve what you have. Use your markets only when it is necessary to sell the surplus you cannot eat or feed.

### PAINTS INJURE WOOD SILOS

Use of Preservatives for Coating Not as Much in Favor as Formerly—They Do No Good.

When wood silos were first being introduced great pains were taken in coating them with tar paint, or something of that sort to preserve the wood, but this practically has gone out of use. Experiments show that these paints do but little good, and again, they are somewhat injurious to the silage, says the Michigan Farmer. Without paint a wood silo will last for a great many years.

### OLD DANDELION.

MR. DAN DE LION awoke one morning to find growing near him pretty Miss Daisy.

Dan was ever bold, but this pretty little flower growing so close beside him made Dan bolder than ever.

He turned his bright face toward her and spoke. "Miss Daisy," he said, "in this beautiful world there cannot be two more certainly made for each other than you and I.

"Just look at the yellow in your gown. Doesn't it just match the yellow of my clothes? Now what do you say if we are married and live in this field where the sunshine is bright and warm, as two happy lovers should?"

Miss Daisy shook out her white petaled skirt and looked down at the

replied that the sun was so bright and warm she could think of nothing else. "But," she said, "perhaps tomorrow I shall be able to think about your proposal and give you your answer."

So Dandelion sat all day with his face bright and happy because he felt sure the morrow would certainly bring rain and then Miss Daisy would have time to think about him.

The next morning the raindrops were falling fast on the meadow and Miss Daisy's upturned face never once looked toward her lover. She was drinking the longed-for water and had no time to notice poor Dan.

The next morning after the rain everything was so clean and fresh and all the flowers were so bright and happy that Dan again spoke to Miss Daisy of his love.

"Oh, the world is so beautiful and fresh this morning I cannot think of anything else," replied Miss Daisy as she flitted the dewdrops from her white skirt.

But Dan was not discouraged; he still waited and hoped for his answer; but one morning poor Dan awoke with a head quite white. He had grown old with waiting and his long, white locks fluttered in the breeze.

Then one day Miss Daisy grew tired of the beauty around her. She cast her eye toward her lover and, to her horror, she saw he was quite bald. Not even one spear of white hair was there on his head.

"Oh!" exclaimed Miss Daisy. "How funny you look. Why, you are old Mr. Dan D. Lion. I could not think of marrying you now. Good-day!"

And that is the reason, so the meadow flowers say, that the Dandelion grows faded and old with long, white locks on its little round head. Long ago its ancestor waited so long for Miss Daisy's answer that he grew old and bald.

(Copyright.)

ground, then she turned a sideways glance on Dan, who was swaying with impatience waiting for her answer.

"The sky is so beautiful and blue today," she said. "I cannot think about anything else; perhaps tomorrow I will give you my answer."

So poor Dan had to be content and wait until the morrow, but when the sun rose the next morning and Dan asked Miss Daisy for her answer she

## KEEP ACCURATE CASH ACCOUNTS

Farm Household Records Valuable as Supplement to General Farm Business.

### IMPORTANT AID TO ECONOMY

First Step Toward Saving Usually Lies in Finding Out Where Unnecessary Expenses Are Incurred—Two Good Methods.

(Prepared by the United States Department of Agriculture.)

Household expenses on the farm are very intimately connected with the business of the farm itself. The farm normally supplies much material which otherwise would become a household expense. The household, in turn very often furnishes board for farm labor, which would otherwise be a farm expense. Merely from the standpoint of keeping track of household expenses as related to the farm business, household accounts are desirable and should serve to supplement and round out farm accounts.

But the value of household accounts goes beyond this. Such accounts are an important aid to economy. A dollar saved is a dollar made, and the first step toward the saving usually lies in finding out where unnecessary expenses are incurred. This can be determined only by keeping careful records of expenses for the whole year.

#### Methods of Keeping Records.

There are two general methods of keeping a record of household expenditures. One is to record the purchases or money paid out, without classifying the expenditures. The other is to classify when the record is made.

The first method is very simple, requires no special form, and gives all necessary information regarding ex-

Accounts Take Only a Few Minutes Each Day.

pensitures. At the end of the month or at the end of the year the total expenditures may be quickly added up. In order, however to know the totals for each kind or class it will be necessary to make up a monthly summary, in which the items will be distributed in different columns by classes. This extra work at the end of each month (or at the end of the year) may cause discouragement and neglect of classification, with the result that the greatest good that could be derived from the records is not realized.

Under the second method, in addition to being entered all together in one column, the items are classified in separate columns. This method has the same advantages as the first method and the additional advantage of allowing for the distribution of items of expenditure to the proper classes without the inconvenience of turning to some other page. The distribution may be left to moments of leisure if the housewife is busy at the time the entry is made. When the page is filled the next page is begun, the top line next to the heading being reserved for the total carried forward from the preceding page. The items may be totaled at the end of the month and these totals carried to the summary page at the end of the book.

#### Kind of Account Book to Use.

The kind of book to use is not important. An ordinary blank daybook or ledger book with a stiff cover may be bought at a reasonable price. If the vertical rulings in the book do not serve the purpose others may be inserted with a pen or pencil. A blank book, with a stiff, pressed paper cover, 12 inches long and 7 inches wide, with 34 spaces for items and containing 48 pages, is excellent for the purpose and sells at retail for 25 cents. With vertical ruling and headings inserted it serves the purpose admirably. In order to eliminate the necessity of writing the headings on each page, the tops of a number of pages may be cut off, allowing one set of headings to serve for all pages.

Accounts are sometimes kept in a book having small pages, but a small page is soon filled, is often crowded, and the information is scattered over too many for convenience in recording and studying the expenditures.

Farmers' Bulletin No. 904, "Farm Household Accounts," gives full directions for keeping such accounts, and in it are to be found sample pages of different methods in use with classifications of expenditures. This may be had without cost, by application to the Department of Agriculture, Washington, D. C.

#### Serviceable Petticoats.

Nightgown bottoms make serviceable petticoats.

## Here's why CAMELS are the quality cigarette

BECAUSE we put the utmost quality into this one brand. Camels are as good as it's possible for skill, money and lifelong knowledge of fine tobaccos to make a cigarette.

Nothing is too good for Camels. And bear this in mind! Everything is done to make Camels the best cigarette it's possible to buy. Nothing is done simply for show.

Take the Camel package for instance. It's the most perfect packing science can devise to protect cigarettes and keep them fresh. Heavy paper—secure foil wrapping—revenue stamp to seal the fold and make the package air-tight. But there's nothing flashy about it. You'll find no extra wrappers. No frills or furbelows.

Such things do not improve the smoke any more than premiums or coupons. And remember—you must pay their extra cost or get lowered quality.

If you want the smoothest, mellowest, mildest cigarette you can imagine—and one entirely free from cigarettey aftertaste,

It's Camels for you.

#### FOWLS REQUIRE GREEN FEED

More Important During Summer Months Than in Winter—Give Them Clover and Weeds.

Remember that yarded fowls need greens and vegetable food during the summer months even more than in winter. If their yards are bare, add cut clover to the daily mash, and throw to the birds all the weeds that you pull in the garden as well as lawn clippings, etc.

#### MOLTING PERIOD IS TRYING

Feathers That Must Be Made Are Rich in Nitrogenous Substance—Coated With Oil.

Many owners of hens think that because the hens are not laying during the molting period, they do not need feed. This period is harder on a hen than heavy laying for the feathers that must be made are rich in nitrogenous substances and are coated with an oil.

#### BANTAMS INTEREST CHILDREN

Few of Small Fowls Keep Young People Out of Mischief and Teach Them to Like Poultry.

Bantams are very interesting to children, and even if it does not pay in dollars and cents to keep a small flock of bantams yet many families have found a few of these small fowls useful to interest the children, keep them out of mischief and teach them to like poultry.
